**FYSIOLINE
TREATMENT TABLES**

For the good of the patient and the therapist

Fysioline has produced treatment tables for more than 25 years. Due to our specialised skills we are highly respected among our clients. Today our production lines are located in Lahti where we have good facilities for design and manufacture.

Each one of our tables is tailor-made according to the client's personal wishes. Our products are being developed with regard to the varying needs and differences in the market areas.

Each piece of the Fysioline treatment furniture is manufactured along a certified quality system for which we have been awarded the ISO 13485 certificate. This guarantees the high quality and user safety of our products.

In this brochure you will find a good variety of treatment tables for various therapeutical needs.

Please visit www.fysiolineproduction.fi for further information.

FYSIOLINE PRO TREATMENT TABLES

Example set-ups with optional accessories

FACE SECTION

A double-hinged face section, adjustable to a sitting position, is available as an optional accessory for all our electric treatment tables. The seamless upholstery of the face section adds to client comfort. The face section is adjustable with a gas spring.

CENTRAL JOINT

- Wide range of positions, central section is lockable when back section is raised

ARM RESTS

- Supportive and easily adjustable vertically and horizontally

FYSIOLINE UPHOLSTERY

- Good wear resistance, does not stiffen with age
- With or without seams, soft
- Rounded and padded edges

FRAME

- Standard frame adjustable between 54–85 cm.
- Sturdy frame

PAPER ROLL HOLDER

- Easy to insert paper roll
- Cutting edge

SIDE EXPANDERS

- Sturdy and self-locking
- Can be adjusted sufficiently closely to support shoulder joints

CASTORS

- Ball bearing mechanism
- Central locking

PLACE-FREE

- Height adjustable frame available on all PRO models. The height is adjustable at the front, sides and the back.
